## 9. Board Member Updates

- a. TT: Things slowin down at U of C, news article about what went down in residence, that with geopolitical stuff is making residence a bit more stressful. Master going well, personally not much going on. In president role, reached out to potential sponsors/partners, connecting with Corinne; StarRez and Folio
- b. EL: Not too much since last meeting, things are busy, but hopefully slowing down soon, RA team is shrinking since last spoke. Treasurer things, not many updates, to-do list is getting whittled down, working on same things as talked about last time. Currently looking for new apartments which is exciting but stressful.
- c. CG: Masters is going well, classes are still busy. Not much else going on, other than scheduling meetings and getting ready for FBM
- d. NR: Teaching support union at SFU is on strike, affecting general student population but little affects in residence (knock on wood). In role, trying to get interest in vacant board positions, but not too much yet. Registration a little slow, but things always pick up at the end
- e. SM: With LEAD Chair Elect, lots have changed but that is because LEAD is a week away. Getting things together. Things have not chilled out at all at Augustana. Personal life, got a cat!! it is doing well.
- f. BR: Life has been Mcdonalds Ice Coffee, LEAD, Animal Crossing on repeat. Trying to come to the FBM; don't have funding, but have never been to West Coast so it is alluring. Otherwise, life is good
